

(e) *Earnings after entitlement that are used in a recomputation.* Earnings that you have after you become entitled to benefits will be used in a recomputation of your primary insurance amount.

(f) *Entitlement to a monthly pension.* We will recompute your primary insurance amount if in a month after you became entitled to old-age or disability insurance benefits, you become entitled to a pension based on noncovered employment, as explained in § 404.213. Further, we will recompute your primary insurance amount after your death to disregard a monthly pension based on noncovered employment which affected your primary insurance amount.

[47 FR 30734, July 15, 1982, as amended at 52 FR 47918, Dec. 17, 1987]

#### **§ 404.282 Effective date of recomputations.**

Most recomputations are effective beginning with January of the calendar year after the year in which the additional earnings used in the recomputation were paid. However, a recomputation to include earnings in the year of death (whether or not paid before death) is effective for the month of death. Additionally if you first became eligible for old-age or disability insurance benefits after 1985 and you later also become entitled to a monthly pension based on noncovered employment, we will recompute your primary insurance amount under the rules in § 404.213; this recomputed Social Security benefit amount is effective for the first month you are entitled to the pension. Finally, if your primary insurance amount was affected by your entitlement to a pension, we will recompute the amount to disregard the pension, effective with the month of your death.

[47 FR 30734, July 15, 1982, as amended at 52 FR 47918, Dec. 17, 1987]

#### **§ 404.283 Recomputation under method other than that used to find your primary insurance amount.**

In some cases, we may recompute your primary insurance amount under a computation method different from the method used in the computation (or earlier recomputation) of your pri-

mary insurance amount, if you are eligible for a computation or recomputation under the different method.

#### **§ 404.284 Recomputations for people who reach age 62, or become disabled or die before age 62 after 1978.**

(a) *General.* Years of your earnings after 1978 not used in the computation of your primary insurance amount (or in earlier recomputations) under the average-indexed-monthly-earnings method may be substituted for earlier years of your indexed earnings in a recomputation, but only under the average-indexed-monthly-earnings method. See § 404.288 for the rules on recomputing when you are entitled to a monthly pension based on noncovered employment.

(b) *Substituting actual dollar amounts in earnings for earlier years of indexed earnings.* When we recompute your primary insurance amount under the average-indexed-monthly earnings method, we use actual dollar amounts, i.e., no indexing, for earnings not included in the initial computation or earlier recomputation. These later earnings are substituted for earlier years of indexed or actual earnings that are lower.

(c) *Benefit formula used in recomputation.* The formula that was used in the first computation of your primary insurance amount is also used in recomputations of your primary insurance amount.

(d) *Your recomputed primary insurance amount.* We recompute your primary insurance amount by applying the benefit formula to your average indexed monthly earnings as revised to include additional earnings. See § 404.281. We then increase the recomputed PIA by the amounts of any automatic cost-of-living or *ad hoc* increases in primary insurance amounts that have become effective since you reached age 62, or became disabled or died before age 62.

(e) *Minimum increase in primary insurance amounts.* Your primary insurance amount may not be recomputed unless doing so would increase it by at least \$1.

*Example 1.* Ms. A, whose primary insurance amount we computed to be \$432.40 in June 1979 in §§ 404.210 through 404.212 (based on average indexed monthly earnings of \$903), had
